SPECIFICATIONS – POWER DISTRIBUTION MODULE

Construction…………………….….…………… ABS Plastic
Power Supply ……….….…… UL Listed Class 2 & II, (03-7142)
Internal Operating Voltage……………….……24V DC, 60 Watt

Basic Functions:

- Distributes DC Power and Digital signals to system modules:
- Serenity Light, Sound and Rainhead
- ThermaTouch or Signature Series Controls
- Solitude Wireless Module - SWM-2 (signal only)
- Steam Generator (signal only)

Installation Notes:

Overall size is approximately 5-3/4" long by 3-3/4" wide and 1-1/2" high. (Without connections) Allow space; 3" Min. for connections. Unit consists of a low voltage (24VDC) circuit board inside a box that can be placed up to 25 feet from the Light and Sound fixture or up to 50 feet from the Steam Generator. A separate universal voltage Power Adapter is provided (03-7142), it requires a standard 110V AC two prong wall outlet.

Product Specification:
5-3/4"L x 3-3/4"W x 1-1/2"H Body.
This PDM requires a Thermasol Steam Generator and/or Light and Sound System and separate power supply for proper operation.
