3. For your safety

To ensure that you will enjoy your SensoWash®, read these operating instructions carefully, particularly the safety instructions. Keep the operating instructions in a safe place and in the case of a change in ownership, ensure they are given to the new owner. These operating instructions correspond to the device's state of technology at the time of printing. Duravit reserves the right to make changes in terms of further development.

3.1 Normal Use

SensoWash® Slim is a shower toilet seat with spray attachment for rearwash and ladywash cleansing functions. It can be used as a normal toilet at any time. Its use is limited exclusively to enclosed spaces.

Any other usage will be deemed as not corresponding with normal usage. Duravit undertakes no liability for abnormal usage.

3.2 Safety instructions

Read and observe the following safety instructions carefully!

Requirements for the user

- Children and persons with insufficient knowledge or experience in handling the device, or who have limited physical, sensory or mental capabilities, may only use the device following proper instruction or when supervised.
- Make sure that children cannot play with the SensoWash®.

WARNING Health damage!

The product must be grounded.

> Compare with the mounting instructions.

Only use the device when it is fully functional

- Make sure that the power cord is not damaged.
- The power cord must not become jammed or pinched.

- Keep the power cord away from hot surfaces and sharp edges.
- Do NOT use the product if it is not working properly.
Disconnect from the power supply immediately. Close the stop valve to interrupt the water supply. Contact help@duravit.com.

Avoid malfunctions and damage to the product as a result of improper use.

CAUTION

Health damage and potential product damage!

- > Supply the device with cold drinking water from the main water system.
- > Do NOT connect any waste water, grey water, industrial water, sea water or other untreated or semi-treated water.
- If the SensoWash® is moved from a cold location to a warm location, condensation may form. Leave the unit switched off for a few hours.
- Do NOT install the SensoWash® in rooms where there is a danger of frost. The room temperature must not be less than 4°C.
- Do NOT place open fire sources, candles, cigarettes, or similar, on the SensoWash®.
- Do NOT expose the SensoWash® directly to water or sunlight.
- Do NOT climb on or stand on the product.

- Do NOT deliberately soil, spray or block the spray wand.

Repairs must only be carried out by a person with the necessary expertise.

- Do NOT carry out modifications, tamper with, install additional equipment or attempt to repair the SensoWash®.
- Repairs must be carried out by qualified electricians or technicians.
- Improperly performed repairs can lead to accidents, damage and malfunctions.
- Do NOT use attachments not recommended by Duravit.

Use of batteries

CAUTION Health damage!

- > Avoid contact with skin, eyes and mucous membranes if battery acid has leaked.
- > In case of contact with the acid, flush the affected areas with large amounts of clean water and consult a doctor immediately.

- Keep batteries out of the reach of small children. Batteries can be life-threatening if swallowed. If a battery has been swallowed, call for medical assistance immediately.
- Batteries may not be recharged, reactivated by other means, dismantled, exposed to fire or short-circuited.
- Always remove empty batteries from the remote control immediately. They may leak and cause damage.
- Do not insert new and old batteries together in the remote control.
- Clean the battery and contacts before inserting the battery. Note the proper polarity.
- Remove the batteries if you do not use the remote control for an extended period.
- Do not expose the batteries to extreme conditions: avoid contact with hot surfaces or direct sunlight. Otherwise there is a risk of leakage.

7. Cleaning and Care

7.1 Seat and lid

For cleaning purpose seat and lid can be easily removed one-handed (see picture on foldout page).

NOTICE

Yellow discolouration or paint delamination due to incorrect cleaner!

- > Do not use abrasive cleaning agents or cleaning agents containing chlorine or acid.
- > Only use cleaning agents and equipment which is intended for this area of application.
- > Follow the instructions of the cleaning agent manufacturer.
- > Never mix cleaners.

A mild soap solution is suitable for daily cleaning.

Clean the seat unit regularly, or immediately if it is soiled. If the cleaning is not carried out regularly enough, soiling may become visible which can lead to stubborn dirt.

- > Clean the toilet seat and lid with warm water and a cleaning agent.
- > Wipe slightly damp afterwards.
- > Leave the toilet seat up while the toilet contains powerful cleaning agent.

8. Disposal

The crossed-out wheeled bin logo requires the separate collection of waste electric and electronic equipment (WEEE). Electric and electronic equipment may contain dangerous and hazardous substances. Do not dispose of this appliance as unsorted municipal waste. Return it to a designated collection point for the recycling of WEEE. By doing so, you will help to conserve resources and protect the environment. Contact your retailer or local authorities for more information.

Used batteries must be disposed of properly. For this purpose, appropriately labelled containers for disposal of batteries are provided in shops where batteries are sold and at community collection points.

Children must not play with plastic bags and packaging material, due to possible injury or danger of suffocation. Store such material safely or dispose of it in an environmentally-friendly manner. If possible, keep the packaging until the warranty period expires.
