EVERYDAY USE

DO MORE WITH YOUR SINK

The kitchen is the busiest place in the home, and a Franke Workcenter can handle many kitchen duties. From food prep to clean-up and much more, these multi-functional sinks offer increased workspace by turning your sink into a space that adds functionality in one location.

BEAUTIFULLY INTEGRATED

It all works together perfectly. Designed to be the heart of the kitchen, these new workcenters are the epitome of efficiency and organization. Built for the way professionals work to make cooking ventures easier.

OPTIMIZED EFFICIENCY

An efficient prep zone in the kitchen is a must, and it is where we spend the majority of the time when fueling our bodies with healthy food and drinks. Franke workcenters support everyday functions in the kitchen by consolidating separate areas into one space.

A DESIRE FOR FINE DETAILS

INTEGRATED KITCHEN TOOLS

Franke workcenters are the modern day workstation that functions much like it does in the commercial kitchen, organizing everyday kitchen tasks.

The unique accessory ledge perfectly integrates custom-fitted kitchen tools into the sink, creating ergonomic elevated workspaces to help save time and space in the kitchen.

UNIQUE BENEFITS

MORE COUNTER SPACE

The ability to slice, chop, dice, wash and rinse food, clean and dry dishes in one area frees up counters for other uses.

LIMITS CROSS-CONTAMINATION

Working with different types of food can easily lead to cross-contamination if you're doing all the prep on the same countertop space. Franke workcenter sinks allow you to keep and prep various foods in one area to help keep both your food and kitchen more sanitary.

MULTI-FUNCTIONAL SPACE

A seamless flowing workspace that allows you to transition effortlessly from prep to serve to clean zone.

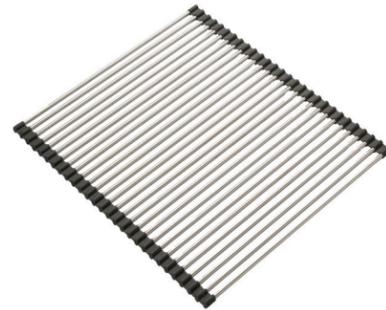

KITCHEN TOOLS

A SEAMLESS SUPPLEMENT TO YOUR SINK

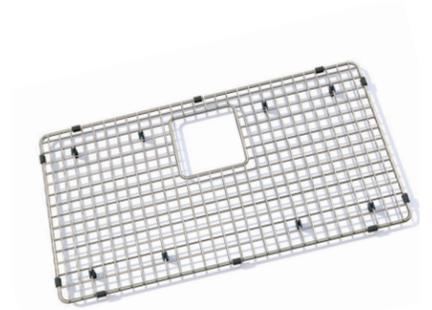

HIGH-END CHOPPING BOARDS

Prepare or serve your food on a generous chopping board that fits over the sink, making it easy to move scraps into the sink.

THE EVER-POPULAR ROLLER MAT

Franke classic that is not only useful and versatile but also a very elegant addition to your sink.

MULTI-LEVEL GRIDS

Sink grid raises to sit upon the integrated ledge creating a higher level workspace. Expands your workspace when you prep, rinse, serve, and clean.

STAINLESS STEEL COLANDER

A beautiful colander bowl that simply fits. The anti-scratch frame glides perfectly on the edge of the sink: move it to where you need it.
