

MODEL NUMBER:

- PK00.CRP CR-P2 Power Kit**
Includes 6 VDC CR-P2 lithium battery, battery holder and connector locking device.

- PK00.WRK PWRX™ Long Life Battery Kit**
Includes PWRX™ battery pack, battery holder and connector locking device.

FOR USE WITH SELECTRONIC BASE FAUCET & FLUSH VALVE MODELS

FEATURES:

PWRX® Long-Life Battery Kit

- Advanced battery chemistry combined with super capacitor technology increases battery life and reduces the downtime and maintenance costs associated with changing batteries
- **Battery Life:**
 - Selectronic Flush Valves: 480,000 cycles (10 years @ 4,000 cycles per month)
 - NextGen & Paradigm Faucets: 624,000 cycles (13 years @ 4,000 cycles per month)
 - All Other Selectronic Faucets: 480,000 cycles (10 years @ 4,000 cycles per month)
- Safety Circuitry prevents overheating and protects the electronics from damage in case of short circuit

CR-P2 Power Kit

- Includes CR-P2 lithium metal battery
- **Battery Life:**
 - Selectronic Flush Valves: 384,000 cycles (8 years @ 4,000 cycles per month)
 - NextGen & Paradigm Faucets: 240,000 cycles (5 years @ 4,000 cycles per month)
 - All Other Selectronic Faucets: 192,000 cycles (4 years @ 4,000 cycles per month)
- 10 Year shelf life

Fail-Safe Operation: Faucet and/or flush valve automatically shuts off when battery goes dead. Prevents costly excess water usage and potential flooding.

Connector Locking Device: Secures connection of power supply to sensor. Prevents disconnection.
