

Food Waste Disposers

- Enable quick and efficient kitchen cleanup
- Provide greater kitchen hygiene
- Are an environmentally responsible solution
- Are considered a “can’t live without” appliance by millions who use them

Accessories

Quick Lock® Sink Mount

Available only from InSinkErator®.

- “Twist-On, Twist-Off” Quick Lock design ensures fast, easy replacement of existing disposer mounts
- Polished stainless steel InSinkErator sink flange complements stainless steel sinks
- For use with all InSinkErator disposers

SinkTop Switch™

Convenient alternative to a wall switch.

- Air-activated
- Mounts easily to sink or countertop
- Perfect for island installations
- Kit includes chrome and white finishes to match most decors
- Gloss black, biscuit, mocha bronze, satin nickel, oil-rubbed bronze, matte black and French gold available by special order
- For use with all InSinkErator disposers

Custom Sink Flanges

Popular designer colors add unique style to kitchens.

- For use with all InSinkErator disposers
- Available in finishes listed below.

Custom Sink Stoppers

Stops water and food particles from going down the drain.

- For use with all InSinkErator disposers

Flanges and Stoppers are available in polished and brushed stainless steel, white, biscuit, matte black, oil-rubbed bronze, French gold and mocha bronze

Quiet Collar® Sink Baffle (Antimicrobial)

Replacement sink baffle.

- Helps reduce sound and is easily removed for cleaning
- Antimicrobial feature helps inhibit growth of odor-causing bacteria
- For use with all Evolution Series® disposers

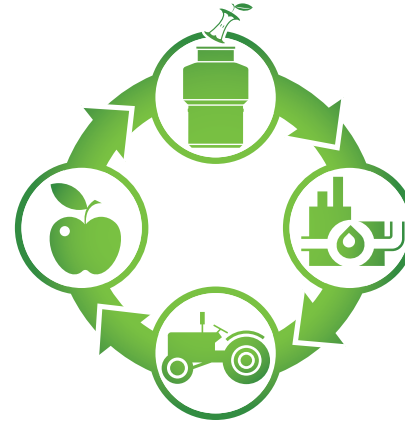

Power Cord Kit

Easy to install.

- Allows disposer to be plugged directly into standard wall outlet
- Includes 3-foot C-UL-listed cord, strain relief clamp, wire connectors and instructions
- For use with all InSinkErator disposers

Did you know that Disposers are Septic System Safe?

A septic system is designed to safely treat and dispose of household waste from the kitchen and bathroom. If your system is sized to handle a dishwasher or clothes washer in addition to sinks and toilets, it can handle a disposer as well.

Recycle Your Food Waste.

Food waste disposers can provide an environmentally responsible alternative to transporting food waste to landfills. And they can help reduce greenhouse gas emissions. At capable wastewater treatment plants, food waste can be recycled to produce renewable energy. Additionally, capable wastewater treatment plants can process food waste into fertilizer. (Check the plant in your area.)
