

WATER LEAK AND FREEZE DETECTOR

Single Pack & Contractor Pack

Offer your customers peace of mind through alerts about water leaks.

Just as connected thermostats keep homeowners connected to their heating and cooling system to maximize energy savings and comfort control, the Water Leak and Freeze Detector keeps them connected to help protect against major water damage. It can alert them to water leaks before they become costly problems.

WATER LEAK AND FREEZE DETECTOR

DETECTION & PROTECTION

The average water leak causes \$7000 in damage.* Alerts from the Resideo Home app can help reduce the risk. The unit can also detect temperatures that could freeze pipes and humidity that could damage valuables.

EASY SETUP

There's no extra hub or base station required. Simply install in the best location and complete the setup using the Resideo Home app.

BATTERY OPERATED

There's no wiring, so it's easy to install the unit where needed. Battery life is up to 3 years without incident.

FEWER CALLBACKS

Battery operation makes maintenance easy for the homeowner. Plus, the unit is reusable after a detection.
