H2Okinetic® Technology

H2Okinetic® Technology sculpts water into a unique wave pattern, giving you the feeling of more water without using more water.

MultiChoice® Universal

Once the MultiChoice® rough is installed, future shower function upgrades or style changes can easily be made without altering the plumbing behind the wall.

The rough-in with stops allows you to shut off the water right at the shower, rather than at the main shut off.

*Available on select models
