SHOWROOM
COLLECTION

PROOF THAT FORM CAN BE BOTH BEAUTIFUL AND FUNCTIONAL.

When form is functional, it makes cooking, cleaning and preparing hot beverages effortless by providing instant hot water on demand. When form is beautiful, it blends elegant design lines with shimmering surfaces to complement any style of kitchen faucet. Introducing the Showroom Collection of instant hot water dispensers by InSinkErator. Six stunning new designs and eight lustrous finishes, all available in the convenience of instant-hot or hot & cold models. We've refined the details of every line, curve, measurement and hue. The result is an inspired collection that's stylish enough for a gallery of art, but practical enough for day-to-day living.

TRANSITIONAL 1010

Elegance has the power to transform every space it touches. Blending modern simplicity with traditional luxury, the Transitional 1010 employs sleek design proportions, smooth surface elements, and bell-shaped aesthetics to add an understated sophistication to the kitchen. Pair it with main faucets that feature transitional design lines and finishes.

TRANSITIONAL 1020

Square at the base, tapered at the neck, and softly squared at the spout, the stylish Transitional 1020 proves once again that it's hip to be square. For precise detailing, we even added tapered squares to the dispenser's low-profile handles. Pair it with main faucets that feature transitional design lines and finishes.

TASTEFUL AND PRACTICAL.
REMINDE YOU OF ANYONE?

TRADITIONAL 2010

With its timeless grace, classic styling and delicate details, the Traditional 2010 serves as a sophisticated centerpiece to the active kitchen. A vase-shaped body, curvaceous neck, and ringed end piece provide a welcomed complement to any home environment. Pair it with main faucets that feature traditional design lines and finishes.

TRADITIONAL 2020

Inspired by the elegance of a vintage street light, the Traditional 2020 exudes the time-honored charm of a venerable antique. At home in any decor, its bold silhouette gives you the freedom to create a look that is truly your own. Pair it with main faucets that feature traditional design lines and finishes.

FOR THOSE WHO APPRECIATE
ELEGANCE AS MUCH AS CONVENIENCE.

MODERN 3010

Clean, timeless and contemporary are the design hallmarks of the Modern 3010. We begin with the simplicity of a cylindrical base, add the clean lines of a J-shaped spout, and finish with proportionally designed cylinder handles. Behold, modern minimalism on exhibit. Pair it with main faucets that feature contemporary design lines and finishes.

MODERN 3020

Looking to add a distinctive statement to your kitchen's contemporary aesthetics? Beautifully organized and handsomely structured, the Modern 3020 features a European-inspired, U-shaped spout that commands the attention it deserves. Pair it with main faucets that feature contemporary design lines and finishes.

FINISHING TOUCHES

Whether your style is traditional, transitional or modern, the shimmering surface hues of our faucet finishes are purposefully created to coordinate with the beauty of your home décor. Choose from a range of eight stunning finishes designed to transform any kitchen into a designer showroom.

COMPLETE YOUR SYSTEM

Our 1300w HWT300 digital instant hot water tank features an adjustable, digital touch-screen thermostat control, so you can select the precise water temperature between 190°F and 210°F.

The new 750w HWT200 instant hot water tank includes an easy to adjust temperature control with an LED indicator to let you know when your water has reached the desired temperature.

Both hot water tanks offer ultra-quiet performance and are manufactured with 100% welded stainless steel construction for optimum durability.
