Technology

- AquaPiston® canister allows water to flow into the bowl from all sides (360°), increasing the power and effectiveness of the flush.
- Flush valve's 3:2 ratio harnesses the natural force of gravity and optimizes flush performance.
- Durable canister design has 90% less exposed seal material than a 3" flapper for leak-free performance.
- Light-touch canister flush requires a lower actuation force than a flapper.

Installation

- Standard 12" (305 mm) rough-in.
- Three-bolt quick-connect installation.
- Seat and supply line sold separately.
