

SharkBite® Ball Valve with Drain/Vent and Mounting Bracket

DESCRIPTION

The SharkBite® Ball Valves are high quality forged brass ball valves with SharkBite connections. The SharkBite connections allow the user to connect the ball valves to copper, CPVC and PEX and PE-RT tubing in seconds with relative ease.

FEATURES AND BENEFITS

Instant push-to-connect connections for increased ease of use: No soldering, clamps, unions or glue required.

Convenient single lever control:

Makes them easy to use and encourages shut-off of water supply.

Full port ball valve:

Allows water to flow freely through the valve.

SPECIFICATION DATA

Performance:

Ball Valve Materials:

Body DZR Lead Free Brass

Seat Ring.....PTFE

Body End Retainer DZR Lead Free Brass

 Stem
 Brass

 O-ring
 EPDM

 Packing
 PTFE

 Packing Nut
 Brass

Handle Zinc plated steel Handle Nut Zinc plated steel

SharkBite Materials:

Body DZR Lead Free brass

Tube support liner Polysulfone or polyethersulfone

SPECIFICATION

The tube shall be inserted into the SharkBite® Push-To-Connect (PTC) fitting in the first stage through a release collar and then through a stainless steel grab ring. The grab ring has teeth that open out and grip onto the tube. At the second stage, the tube shall be pushed through an O-ring protector which aligns the tube. A specially formulated EPDM O-ring shall be compressed between the wall of the fitting and the tube before the end of the tube reaches the tube stop. Only when the tube has passed through the O-ring and reached the tube stop shall a secure joint be created. The fitting shall be a SharkBite PTC fitting.
